

Graphic Designer

Job Description

If you are seeking a phenomenal place to design marketing collateral for appreciative clients in an ego-less team environment, welcome to Electric Pen. We are a strategic, full-service graphic design firm looking for a graphic designer to join our talented team in a contract-to-hire position.

Our graphic designer will be responsible for a broad range of projects including corporate identities, websites, print collateral and advertising. The graphic designer will drive the creative process from concept to delivery assuring our clients are thrilled with the results. Strategic, business-minded thinking ability is a must.

Required qualifications:

- A bachelor's degree (with preference of BFA)
- 2+ years of design experience
- Ability to understand clients' business and industry needs and create/design effective communication tools to meet business objectives
- Ability to understand creative briefs, intake relevant information and determine appropriate course of actions for project direction
- The ability to be creative within the confines of graphic standards
- Excellent communication skills
- Conceptual skills
- Detail-oriented with an exceptional ability to manage multiple projects and deadlines at the same time under tight deadlines
- Be able to manage all aspects of both small and large projects with small and large budgets
- Demonstrate an ability with a multitude of design styles

Desired Qualifications:

- An in-depth understanding of Macintosh OSX
- Expert with design software (Adobe creative suite)
- Knowledge of current trends in design
- Writing skills (language, spelling, grammar)
- Proofing skills
- Top skills with InDesign, Photoshop, Illustrator, Flash, Acrobat, Suitcase, Word
- Working knowledge of Web technologies and skills with html
